75 JAAR “75 Years of Freedom” VR/JHEID

Introduction

The theme chosen for the Airborne International Youth Conference Youcee 2019 is “75 Years of Freedom”. This is in cue with the other Airborne partners, who have adopted this Year theme of Platform WO2 (WWII). The annual conference is based on the structure of the Arnhem Model United Nations, a project directed by students of Rivers International School. High-school pupils from the Netherlands, Poland, Germany, Britain and Italy, who are joining the Market Garden programme Monday-Sunday, will also participate in the ARMUN conference on Friday. On the other days this group will participate in a highly varied programme which, in the context of the commemoration of Operation Market Garden, focuses on three aspects: commemoration, awareness and experience. The thread running throughout the entire programme is the question of the meaning of peace and freedom, then and now.

Continue introduction

Each year we aim to reach a new wave of high-school students and convey to the younger generations the priceless value of the Four Freedoms formulated by President Franklin Delano Roosevelt. By their participation in the Market Garden programme the youngsters are the “key to the Airborne region”.

Mission

To meet the wish of the veterans to intensively and interactively involve young people from various countries in keeping alive the lessons learned from the Second World War.

Cultural participation Akoesticum

There is an artist in every human being and Akoesticum wouldn't be Akoesticum if this National Training Centre for Performing Arts did not use the creativity of the 100 international youngsters, writing lyrics together, composing and rehearsing music. Suddenly, singer-songwriters in the making without any previous education. Under the professional guidance of a number of great coaches, led by Rohan Poldervaart, this will eventually lead to a very own "world premiere": the "Youcee Song 2019". This Vocal Statement will be interwoven as a thread through the conference programme on official occasions in the four Airborne region municipalities.

Become a friend of the vfonds today

The Dutch National Foundation for Peace, Freedom and Veteran Care (vfonds) supports a variety of projects in the interest of peace and freedom.

Our three main goals:

1. The vfonds is dedicated to creating awareness and respect for uniformed personnel and veterans, who have become victims of war whilst serving the Netherlands, anywhere in the world.
2. Moreover, the vfonds wants to keep the memory of the Second World War alive by commemorating the victims, honouring the Veterans, and above all, by celebrating liberation, peace and freedom.
3. In the interest of peace and freedom, we support a variety of projects in the Netherlands that stimulate democracy and international justice.

Do you also consider Peace and Freedom important? And do you like the projects we support? Become a friend of the vfonds today (for free)! www.vfonds.nl Visit the projects we support and talk about it with your friends. Because together we make peace possible !
